

LELY SPLENDIMO

Mowers FC 330 / MC 910

Splendimo FC 330

- Hadropneumatic suspension system
- No A-Frame
- Swing open front guard
- Large oscillating path (20°)
- Trailing linkage

Splendimo MC 910

- Variable working width 8,75 m / 8,95 m
- 110 ° transport position including mechanical locking
- Independent lifting as standard
- Large oscillating path (20°)
- Transport height of 4,00 m

The FC 330 and the MC 910 get a facelift including a new frame. But they are also equipped with the brandnew QIII cutter bar. The QIII is characterized by an enormous efficiency and a high ease of maintenance, because of its modular construction. The bigger mower discs with its large overlap guarantee an excellent quality of mowing. A long service life is ensured by an increased driveshaft and double-bearing gear units.

	Working width approx. m	Number of discs	Blades per disc	Conditioner width approx. m	Transport height approx. m	Transport width approx. m	Swath width approx. m	PTO speed rpm	Power required approx. kW/HP	Weight approx. kg, nylon	Weight approx. kg, steel
FC 330	3.25	1x7	2	2.60	-	2.99	1.40 - 2.70	1,000	80/99	1,200	1,230
MC 910	8.75/8.95	2x7	2	2x2.60	4.00	2.20-2.90	1.40-3.20	1,000	125/170	2,500	2,560

Lely-branded forage machines are manufactured and globally distributed by AGCO.
